

Modified Basketball Rules

How to Play:

- The class will be arranged into groups of 4.
- A basketball court will be made by labeling three locations with tape.

- Each team will be given one white board, marker and eraser.
- All students must solve the problem on their activity sheet and the player with the white board will show their work there.
- Once a problem is put up, your group will be given 3 minutes to solve and discuss.
- When the teacher calls time, each team representative will hold up their whiteboard. If the problem is solved correctly, those teams will each get a point.
- The team with correct answers will also send up the person holding the board and he/she will choose the distance to shoot from and then shoot the ball to try to earn more points.
- The white boards then rotate to the next person in the group.
- Play continues until all questions are used or time runs out.
- The team with the most points wins!

Basketball Answer Recording Sheet

1.)	6.)
2.)	7.)
3.)	8.)
4.)	9.)
