

Find Your Partner

Directions:

- You will be working in a group of 8
- A team runner will get a set of 8 cards from the teacher and pass them out so that you each have 1 card.
- You must find your “partner”, the person who has an **expression** equivalent to yours.
- You may help other members of your team find their partners, but you can not take their cards and do it for them.
- Once all group members have found their partners, raise your hands to have the teacher check. If it is correct, record the equivalent expressions on your recording sheet and show your work to explain how you know they are equal.
- You will repeat the same steps for Round 2, but with a different set of 8 cards.

Recording Sheet Round 1:

My Expression	My Partner's Expression

How I know they are equal:

Recording Sheet Round 2:

My Expression	My Partner's Expression

How I know they are equal:
